PROFILE

Technical educator and systems architect with 11 years of experience and 2,000+ students, building AI-driven curriculum engines for ORGANVM. Bridges the gap between deep observability and human comprehension by transforming complex technical topics into engaging, interactive learning experiences. Expert in hands-on lab environment design, automated learning-path generation, and real-time observability of student progress. Architect of a 113-repository system that proves the power of "process-as-product." MFA in Creative Writing.

TEACHING SKILLS

Instructional Design · Technical Writing · Python · TypeScript · Node.js · GCP · Docker · Terraform · CI/CD · GitHub Actions · Kubernetes · React 18 · D3.js · p5.js · YAML/JSON Schema · pytest · ruff · Express · Git

TECHNICAL SKILLS

TypeScript · Python · React 18 · Node.js · p5.js · D3.js · WebGL · WebAudio · Astro · Docker · GitHub Actions · CI/CD · Git

SELECTED PROJECTS

ORGANVM Documentation System — 42 Published Essays
~142K words of public documentation making complex creative infrastructure accessible to general audiences. Pedagogical transparency methodology: each essay teaches systems thinking, architectural decision-making, and creative production processes. Open reference material for practitioners and educators.

Classroom RPG: Aetheria — Gamified Education Platform
React 19/TypeScript SPA transforming classroom learning into RPG mechanics: quests mapped to CCSS ELA and AP Literature standards, XP progression, AI-powered evaluation with rubric scoring and remediation feedback. Educator dashboard with analytics, rubric management, and standards-alignment tracking. Four thematic skins, 4-year English Lit curriculum, three-way student/teacher/parent voting system. Open-source MIT.

Omni-Dromenon Engine — Participatory Performance System
Real-time audience-participatory performance infrastructure with educational applications. Consensus algorithms where collective input shapes outcomes — models for classroom engagement, collaborative learning, and real-time feedback systems. Genre presets for ballet, theatre, opera, electronic music.

Portfolio Site — Interactive Case Studies & Generative Art
Astro 5 site with 20 interactive case studies, generative p5.js art, D3.js data visualizations. Documentation-driven design demonstrating technical pedagogy through accessibility-first patterns and visual learning.

TEACHING EXPERIENCE

Technical Educator & Systems Architect — 2020 — Present
ORGANVM

- **Curriculum Engineering:** Built AI-driven learning path generators (adaptive-personal-syllabus) and gamified lab environments (classroom-rpg-aetheria).
- **Systems Architecture:** Orchestrated 113-repository ecosystem with automated governance and 104 CI/CD pipelines; maintained 766K+ words of documentation.
- **Observability:** Designed system dashboards for real-time progress tracking and automated quality gates; engineered 23,470 tests in flagship repositories.
- **Documentation Design:** Implemented documentation-as-code standards across 8 organizations, ensuring architectural truth is propagated to all learner-facing materials.

Instructor — Composition & Writing Architect — 2015 — Present
Miami Dade College, Keiser University, NSU, FAU, Broward, Palm Beach State

- Taught 100+ courses to 2,000+ students. Expert in translating complex technical systems into accessible, engaging educational materials for diverse audiences.

EDUCATION

M.F.A. Creative Writing, Florida Atlantic University — 2015 — 2018
B.A. English Literature, CUNY College of Staten Island — 2010 — 2014
