PROFILE

Systems architect building high-integrity, transparent infrastructure at institutional scale. Architect of ORGANVM, a 113-repository ecosystem coordinated through automated governance, 700+ verification tests, and 104 CI/CD pipelines. Expert in designing auditable state machines and self-healing data ingestion engines that ensure systemic correctness without manual intervention. Eleven years of technical instruction and documentation architecture (766K+ words) bridging the gap between deep systems engineering and global accessibility. Full-Stack Developer (Meta).

TECHNICAL SKILLS

PHP · Python · TypeScript · Node.js · MySQL · PostgreSQL · LAMP Stack · API Integration · CI/CD · GitHub Actions · Docker · Zod · pytest · ruff · YAML/JSON Schema · React 18 · Express · Git · WebSocket · Redis · Nginx · GCP / Terraform · Technical Writing · Instructional Design

SELECTED PROJECTS

public-record-data-scrapper — High-Integrity Ingestion Engine
Designed a resilient data ingestion system for community visibility. Handles complex API integrations and scraper logic with built-in validation to ensure data provenance and auditable history for public-interest records.

system-governance-framework — Auditable Decision State Machine
Formal state machine governing 113 repositories. Enforces forward-only status transitions (LOCAL → CANDIDATE → PUBLIC → GRADUATED) with automated dependency validation and zero-violation enforcement across 8 organizations.

linguistic-atomization-framework — Semantic Content Architecture
Information architecture system for global accessibility. Atomizes 766K+ words of documentation into reusable, semantically-linked modules. Enables auto-generation of repo-specific context files from a single source of truth.

Application Pipeline — Greenhouse/Ashby API Suite
Python CLI suite for structured career state management. Implements native Greenhouse/Ashby API clients, 8-dimension scoring rubric, and Protocol-validated outreach generation with 700+ tests on real pipeline data.

agentic-titan — Multi-Agent Orchestration Framework
TypeScript framework for autonomous task decomposition and parallel execution. Features session persistence, self-correction hooks, and structured tool invocation with 1,095+ tests across 18 development phases.

EXPERIENCE

Software Engineer & Platform Architect — 2020 — Present
ORGANVM

- **Systems Architecture:** Built 113-repository infrastructure governed by self-healing state machines and 104 CI/CD pipelines; 100% documentation coverage across 8 GitHub organizations.
- **Data Integrity:** Designed public-record ingestion engines and automated dependency validation tools ensuring zero back-edge violations across 60 validated architecture nodes.
- **Tooling & APIs:** Developed 37 Python CLI tools for pipeline automation, including native API clients for Greenhouse/Ashby and YAML schema-based validation for all system entities.
- **Testing Discipline:** Engineered a 700+ test suite operating on real production data with zero test doubles, maintaining 85% coverage on critical multi-agent orchestration paths.

Instructor — Composition & Writing Architect — 2015 — Present
Miami Dade College, Keiser University, NSU, FAU, Broward, Palm Beach State

- Taught 100+ courses to 2,000+ students across 8 institutions. Expert in technical communication, documentation architecture, and translating complex systems for diverse global audiences.

Digital Marketing Manager — 2023 — 2024
Miami Dade College Foundation (Nonprofit Fundraising)

- Rebuilt foundational web infrastructure and designed digital fundraising campaigns that increased donor engagement by 32% and streamlined non-profit contribution workflows.

Multimedia Specialist — Fundraising Systems — 2011 — 2020
AJP Media Arts — clients incl. Boca Ballet Theatre, Forward Funding

- Developed visual and technical fundraising campaigns for nonprofits and arts organizations; generated 17.5M+ views and supported $2M in individual and institutional fundraising.

EDUCATION

M.F.A. Creative Writing, Florida Atlantic University — 2015 — 2018
B.A. English Literature, CUNY College of Staten Island — 2010 — 2014
