Portfolio · GitHub · agentic-titan · ORGANVM System

PROFILE

Built quality and release infrastructure for a 113-repository system across 8 GitHub organizations: 128 GitHub Actions workflows (18 reusable templates), 104 CI/CD pipelines, 2,349 tests, and a promotion state machine governing repo lifecycle from LOCAL through GRADUATED. Python and TypeScript developer tooling — CLI scoring engines, YAML schema validation, batch processing, dependency checks. AI-conductor methodology: human-directed, AI-generated, human-reviewed. Full-Stack Developer (Meta).

TECHNICAL SKILLS

GitHub Actions · CI/CD · Python · TypeScript · Helm · Terraform · ArgoCD · Docker · pytest · Vitest · ruff · CLI Tooling · YAML/JSON Schema · Git · Node.js · pnpm Monorepos · Release Engineering · Code Quality Automation · GCP · Redis

SELECTED PROJECTS

ORGANVM Quality & Release Infrastructure — 113-Repository System
128 GitHub Actions workflows (18 reusable templates), 104 CI/CD pipelines, 2,349 tests. Promotion state machine (LOCAL → CANDIDATE → PUBLIC → GRADUATED) enforcing quality gates at every stage. Zero violations across 50 dependency edges.

Verification Matrix & Code Quality Platform
Module-to-test coverage enforcement (117/117 modules verified). Signal validation gates, schema integrity checks, metric consistency validators. Quality ratchet: once a threshold is met, it cannot regress.

agentic-titan — AI-Assisted Developer Tooling
TypeScript multi-agent framework: 18 development phases, 1,095+ tests. Structured tool invocation, self-correction hooks, and autonomous multi-step engineering tasks.

Application Pipeline — CLI Tooling Suite
Python CLI tools: 8-dimension scoring rubric, YAML state machine, submission preflight, batch enrichment, velocity tracking. 14 scripts sharing a common library with schema validation.

Portfolio — Astro 5 Production Platform
Quality-ratchet CI/CD: policy JSONs committed to repo, governance tests assert thresholds match, deploy gate triggers only on quality pass. 20 case studies, Pagefind search.

EXPERIENCE

Software Engineer & Release Platform Architect — 2020 — Present
ORGANVM

- **Release Engineering:** Promotion state machine governing 113 repos — forward-only transitions, CI-enforced validation, audit trail on every state change. 128 GitHub Actions workflows, 18 reusable templates.
- **Code Quality Platform:** Verification matrix enforcing module-to-test coverage (117/117). Quality ratchet governance, schema validation gates, metric consistency checks — once a bar is met, it cannot regress.
- **AI Strategy:** AI-conductor methodology: multi-agent systems (agentic-titan, 1,095+ tests) enabling engineers to leverage LLM tools for code generation, review, and automated testing.
- **Developer Tooling:** Python + TypeScript CLIs — scoring engines, YAML schema validation, batch processing, dependency checks across 8 orgs with 50 validated edges.

Instructor — Composition & Technical Communication — 2015 — Present
Miami Dade College, Keiser University, Nova Southeastern, FAU, Young Harris, Tarrant County, Broward, Palm Beach State

- 100+ courses across 8 institutions; 2,000+ students. Curriculum design, documentation architecture, and mentoring.

Digital Marketing Manager — 2023 — 2024
Miami Dade College Foundation (nonprofit)

- Rebuilt foundation website; designed automated campaigns increasing donor engagement by 32%. Content pipeline architecture.

Multimedia Specialist — 2011 — 2020
AJP Media Arts — clients incl. Boca Ballet Theatre, Forward Funding, Arts in Boca

- Video, audio, and visual production pipelines for nonprofits and arts organizations; 17.5M+ views, $2M in fundraising.

EDUCATION

M.F.A. Creative Writing, Florida Atlantic University — 2015 — 2018
B.A. English Literature, CUNY College of Staten Island — 2010 — 2014

CERTIFICATIONS

Full-Stack Developer, Meta (2024) · UX Design, Google (2023) · Digital Marketing, Google (2023) · Project Management, Google (2023)
