# *Anthony James Padavano*

PLATFORM ENGINEER & SYSTEMS ORCHESTRATOR

New York City | 561-602-7300 | padavano.anthony@gmail.com

**LINKS**

Portfolio · GitHub · agentic-titan · ORGANVM System

**PROFILE**

Designed and operates an 8-organization orchestration system coordinating 113 repositories through a machine-readable registry, automated dependency validation, seed.yaml contracts, and a pulse daemon computing system density every 15 minutes. MCP server with 88 tools exposing the full system graph to AI agent sessions. The infrastructure that lets one person manage 113 repos with the coherence of a team.

**TECHNICAL SKILLS**

Platform Engineering · Developer Experience · Systems Architecture · Orchestration Design · Registry Architecture · Dependency Graph · Seed Contracts · MCP Protocol · Python · TypeScript · FastAPI · PostgreSQL · Neon · GitHub Actions · CI/CD · Git Superprojects · Submodule Management · LaunchAgent · HTMX

**SELECTED PROJECTS**

**ORGANVM Eight-Organ Orchestration System — 113-Repository Infrastructure**
Designed 8-organization orchestration system with registry-v2.json (2,240-line single source of truth), seed.yaml contracts (produces/consumes edges per repo), and pulse daemon (15-minute heartbeat computing AMMOI density across all organs). Git superproject with 9 submodules. Automated dependency validation, promotion state machine, and daily metrics refresh. Python + TypeScript.

**organvm-mcp-server — 88-Tool System Graph Exposure**
MCP server (stdio transport) exposing the full system graph to any Claude Code session: 88 tools across 16 groups (registry, seeds, graph, health, context, governance, sessions, SOPs, metrics, atoms, coordination, ecosystem, ontologia, and more). Enables AI agents to query dependency graphs, check promotion status, inspect seed contracts, and coordinate work without filesystem access.

**system-dashboard — FastAPI + HTMX Observability Platform**
FastAPI + Jinja2 + HTMX dashboard with live system health, registry browser, dependency graph visualization, soak monitoring, essay reader, and omega scorecard. Routes: /health/, /registry/, /graph/, /soak/, /essays/, /omega/, /ontologia/. Auto-refreshes from registry and metrics on each request.

**stakeholder-portal — Next.js Intelligence Portal**
Next.js stakeholder portal with repository browser, AI-powered chat interface, and live registry data. Surfaces the system state to non-technical stakeholders without requiring CLI access. TypeScript, Neon (PostgreSQL), Vercel deployment.

**Application Pipeline — CLI Tooling Suite**
Python CLI tools: Greenhouse API client, 8-dimension scoring rubric, campaign orchestrator, YAML pipeline state machine, submission preflight, batch enrichment, velocity tracking. 14 independent scripts sharing a common library.

**EXPERIENCE**

**Platform Engineer & Systems Orchestrator** — 2020 — Present

- **Registry Architecture:** Designed 8-organization orchestration system with registry-v2.json (single source of truth), seed.yaml contracts (produces/consumes edges), and pulse daemon (15-minute heartbeat with AMMOI density computation).
- **Developer Infrastructure:** Git superproject with 9 submodules, 104 CI/CD pipelines, 128 GitHub Actions workflows (18 reusable templates), automated dependency validation across 8 organizations.
- **MCP Protocol:** Designed and implemented 88-tool MCP server exposing the full system graph to AI agent sessions — registry queries, seed contract inspection, dependency tracing, coordination primitives.
- **Observability:** FastAPI dashboard (health, registry, graph, soak monitoring, omega scorecard) + stakeholder portal (Next.js + Neon) serving live system state to both technical and non-technical audiences.

**Instructor — Composition & Writing** — 2015 — Present

*Miami Dade College, Keiser University, Nova Southeastern, FAU, Young Harris, Tarrant County, Broward, Palm Beach State*

- 100+ courses across 8 institutions; 2,000+ students. Clear technical communication, documentation, and mentoring.

**Digital Marketing Manager** — 2023 — 2024

*Miami Dade College Foundation (nonprofit)*

- Rebuilt foundation website; designed campaigns increasing donor engagement by 32%.

**Multimedia Specialist** — 2011 — 2020

*AJP Media Arts — clients incl. Boca Ballet Theatre, Forward Funding, Arts in Boca*

- Video, audio, and visual campaigns for nonprofits and arts organizations; 17.5M+ views, $2M in fundraising.

**EDUCATION**

**M.F.A. Creative Writing**, Florida Atlantic University — 2015 — 2018
**B.A. English Literature**, CUNY College of Staten Island — 2010 — 2014

**CERTIFICATIONS**

Full-Stack Developer, Meta (2024) · UX Design, Google (2023) · Digital Marketing, Google (2023) · Project Management, Google (2023)
