SELECTED PROJECTS

ORGANVM Eight-Organ System — 103-Repository Documentation Governance
8 GitHub organizations, 21K code files, 810K+ words of technical documentation. CLAUDE.md governance files in every repo defining documentation standards, contribution protocols, and architectural rationale. 128 GitHub Actions workflows (18 reusable templates) enforcing documentation quality gates. Automated dependency validation, promotion state machine (LOCAL → CANDIDATE → PUBLIC → GRADUATED), and cross-org documentation coordination. TypeScript + Python.

Application Pipeline — Documentation-Driven CLI Tooling Suite
Python CLI tools with extensive YAML schema documentation: 8-dimension scoring rubric, campaign orchestrator, pipeline state machine, submission preflight, batch enrichment. 14 independent scripts sharing a documented common library. Every command, flag, and configuration file documented in structured CLAUDE.md with quick-command tables and session sequences.

Portfolio — 20 Case Studies & Technical Writing Showcase
Astro 5 static site with 20 detailed case studies documenting system architecture, design decisions, and technical outcomes. Pagefind search indexing, quality ratchet governance with policy JSONs enforcing documentation-code parity. CI/CD publishing pipeline.

agentic-titan — Multi-Agent Orchestration System
TypeScript multi-agent framework: 18 development phases, 1,276 tests. Comprehensive API documentation, agent coordination protocols, task decomposition specifications, and structured developer guides for extensibility.

agent--claude-smith — Claude Agent SDK Integration
TypeScript agent built on Claude Agent SDK with session persistence, self-correction hooks, and structured tool invocation. Technical reference documentation for autonomous multi-step software engineering tasks and tool integration patterns.

EXPERIENCE

Independent Documentation Engineer & Technical Writer — 2020 — Present

- **Documentation Governance:** Authored and maintained CLAUDE.md documentation standards across 103 repositories and 8 GitHub organizations — establishing style guides, architectural rationale, contribution protocols, and CLI reference documentation for every project.
- **Schema & Reference Documentation:** Designed YAML schema specifications, CLI command references (79 commands across 59 standalone + 20 parameterized), configuration file documentation, and API integration guides for Python and TypeScript tooling.
- **Documentation Infrastructure:** Built documentation-as-code pipelines with 128 GitHub Actions workflows (18 reusable templates), 94 CI/CD pipelines, automated validation gates enforcing documentation quality, and structured publishing workflows.
- **AI-Conductor Methodology:** Designed documentation-first development process: 32 AI agent definitions governed by structured documentation files, human-directed AI-generated content through systematic review and quality control.

Instructor — Composition, Technical Writing & Communication — 2015 — Present

Miami Dade College, Keiser University, Nova Southeastern, FAU, Young Harris, Tarrant County, Broward, Palm Beach State

- 100+ courses across 8 institutions; 2,000+ students. Taught clear technical communication, structured argumentation, documentation standards, audience analysis, and revision methodology. Developed curriculum emphasizing precision and clarity in technical and professional writing.
