### PROFILE

MFA Creative Writing (Florida Atlantic University). Nonfiction writer and systems artist exploring recursive structures, institutional critique, and the aesthetics of governance through sustained public writing practice. Author of 42 published essays (~142K words) documenting the construction of a 103-repository creative-institutional system — making artistic and technical decision-making visible as a form of critical nonfiction. Creator of the Omni-Dromenon Engine, a real-time audience-participatory performance system. 11 years college writing instruction across 8 institutions, 2,000+ students. LGBTQ+.

### TECHNICAL SKILLS

Creative Nonfiction · Essay · Systems Thinking · Institutional Critique · Pedagogical Writing · Curriculum Design · Research · Public Documentation · TypeScript · Python · p5.js · D3.js · SuperCollider · Max/MSP · Git

### SELECTED PROJECTS

#### Public Documentation Practice — 42 Published Essays

~142K words of critical nonfiction documenting creative infrastructure for general audiences. Pedagogical transparency methodology making artistic, technical, and governance decision-making visible. Essays function as institutional critique, process writing, and systems analysis — a sustained literary practice exploring how creative work is organized, governed, and made legible.

#### ORGANVM Eight-Organ Creative-Institutional System

103 repositories across 8 GitHub organizations. Automated dependency validation, promotion state machine, 82+ CI/CD pipelines, 2,349+ tests. The system is both working infrastructure and the subject of the nonfiction practice — an argument that governance and process, made visible, constitute the most interesting artistic output. Single-practitioner model using AI as compositional instrument.

#### Omni-Dromenon Engine — Audience-Participatory Performance System

TypeScript pnpm monorepo: Express/Socket.io core with three-axis weighted consensus, React 18 performer/audience interfaces, OSC bridge to SuperCollider/Max/MSP, WebAudio synthesis. Five genre presets. 1,000+ concurrent participants, <2ms P95 latency. Open-source MIT.

#### Portfolio & Generative Art

Astro 5 site with real-time generative p5.js visual layer, D3.js data visualizations, 20 case studies. CMYK design system.
