## DEVELOPER EXPERIENCE & DESIGN SYSTEMS ENGINEER

New York City | 561-602-7300 | padavano.anthony@gmail.com

LINKS	<a href="#">Portfolio</a> · <a href="#">GitHub</a> · <a href="#">agentic-titan</a> · <a href="#">ORGANVM System</a>	
PROFILE	Developer experience engineer building design systems, documentation infrastructure, and automated quality governance in TypeScript and Python. Creator and sole architect of a 103-repository system across 8 GitHub organizations — component-driven design token architecture (CSS custom properties), CLAUDE.md documentation standards in every repo, 94 CI/CD pipelines enforcing automated quality gates, and a quality ratchet system that commits policy JSONs and validates them through automated tests. Full-Stack Developer (Meta). TypeScript strict mode across all TS projects. 21K code files, 3.6K tests, 810K+ words of documentation. 18 years professional experience. MFA Creative Writing. LGBTQ+.	
TECHNICAL SKILLS	TypeScript · React 18 · CSS / Design Tokens · Vitest · Astro · Node.js · Vite · pnpm Monorepos · p5.js · D3.js · GitHub Actions · CI/CD · CLI Tooling · Python · Docker · Git · Zod · Playwright · YAML/JSON Schema · Claude Agent SDK · WebSocket · GCP / Terraform	
SELECTED PROJECTS	<b>Portfolio — Component-Driven Design System &amp; Quality Governance</b> Astro 5 static site with CSS custom properties as design token layer — semantic variables for dark theme, gold accent, burnt sienna hover states. Full-page p5.js generative canvas (3 intensity modes) composited via z-index layering. Quality ratchet: policy JSONs committed to .quality/ directory, validated against README values through automated tests. Deploy gate triggers only on quality pipeline success. Pagefind search, Vitest unit tests, Playwright E2E, accessibility validation. 20 case studies, D3.js data visualizations.	
	<b>ORGANVM Eight-Organ System — Documentation-First Developer Infrastructure</b> 103 repositories across 8 GitHub organizations with CLAUDE.md governance in every repo — build commands, architecture notes, navigation protocols, and dependency declarations. 128 GitHub Actions workflows (18 reusable templates), 94 CI/CD pipelines, 43 validated dependency edges with zero circular dependencies. Automated promotion state machine (LOCAL → CANDIDATE → PUBLIC → GRADUATED). seed.yaml metadata contracts. 810K+ words of documentation. TypeScript + Python.	
	<b>Application Pipeline — DX-Focused CLI Tooling Suite</b> 14 independent Python CLI tools sharing a common library (pipeline_lib.py): Greenhouse API client, YAML pipeline state machine, 8-dimension scoring rubric, campaign orchestrator, submission preflight, batch enrichment, velocity tracking. Consistent CLI patterns, helpful error messages, and structured output across all tools.	
	<b>agentic-titan — Multi-Agent Orchestration System</b> TypeScript multi-agent framework: 18 development phases, 1,276 tests. Agent coordination, task decomposition, and parallel execution patterns. Structured for extensibility and reliability.	
	<b>agent--claude-smith — Claude Agent SDK Integration</b> TypeScript agent built on Claude Agent SDK with session persistence, self-correction hooks, and structured tool invocation. Designed for autonomous multi-step software engineering tasks.	
EXPERIENCE	<b>Independent Software Engineer &amp; Developer Experience Builder</b> 2020 — Present <ul style="list-style-type: none"><li><b>CI/CD Infrastructure:</b> 128 GitHub Actions workflows (18 reusable templates), 94 CI/CD pipelines, automated dependency validation across 8 GitHub organizations. Quality ratchet governance: policy JSONs validated through automated tests, deploy gates enforcing pipeline success.</li><li><b>Developer Tooling &amp; Documentation:</b> CLAUDE.md documentation standards in every repo (build commands, architecture notes, navigation protocols). 14 CLI tools with consistent patterns, structured output, and helpful error messages. seed.yaml metadata contracts across 103 repositories. 810K+ words of documentation.</li><li><b>Design System Architecture:</b> Component-driven front-end with CSS custom properties as design token layer — semantic variables, dark theme system, generative p5.js canvas with 3 intensity modes. Astro 5 build pipeline with Vitest, Playwright E2E, accessibility validation, and Pagefind search indexing.</li><li><b>LLM Orchestration:</b> Multi-agent systems with Claude Agent SDK (agent--claude-smith), agentic-titan framework (1,276 tests), structured tool invocation and self-correction.</li></ul>	
	<b>Instructor — Composition &amp; Writing</b> 2015 — Present <i>Miami Dade College, Keiser University, Nova Southeastern, FAU, Young Harris, Tarrant County, Broward, Palm Beach State</i> <ul style="list-style-type: none"><li>100+ courses across 8 institutions; 2,000+ students. Clear technical communication, documentation, and mentoring.</li></ul>	
	<b>Digital Marketing Manager</b> 2023 — 2024 <i>Miami Dade College Foundation (nonprofit)</i> <ul style="list-style-type: none"><li>Rebuilt foundation website; designed campaigns increasing donor engagement by 32%.</li></ul>	
	<b>Multimedia Specialist</b> 2011 — 2020 <i>AJP Media Arts — clients incl. Boca Ballet Theatre, Forward Funding, Arts in Boca</i> <ul style="list-style-type: none"><li>Video, audio, and visual campaigns for nonprofits and arts organizations; 17.5M+ views, \$2M in fundraising.</li></ul>	

EDUCATION

**M.F.A. Creative Writing**, Florida Atlantic University  
**B.A. English Literature**, CUNY College of Staten Island

2015 — 2018  
2010 — 2014
