

Anthony James Padavano

DEVELOPER EXPERIENCE & DESIGN SYSTEMS ENGINEER

New York City | 561-602-7300 | padavano.anthony@gmail.com

| | | |
|-------------------|---|--|
| LINKS | Portfolio · GitHub · agentic-titan · ORGANVM System | |
| PROFILE | Developer experience engineer building design systems, documentation infrastructure, and automated quality governance in TypeScript and Python. Creator and sole architect of a 103-repository system across 8 GitHub organizations — component-driven design token architecture (CSS custom properties), CLAUDE.md documentation standards in every repo, 94 CI/CD pipelines enforcing automated quality gates, and a quality ratchet system that commits policy JSONs and validates them through automated tests. Full-Stack Developer (Meta). TypeScript strict mode across all TS projects. 21K code files, 3.6K tests, 810K+ words of documentation. 18 years professional experience. MFA Creative Writing. LGBTQ+. | |
| TECHNICAL SKILLS | TypeScript · React 18 · CSS / Design Tokens · Vitest · Astro · Node.js · Vite · pnpm Monorepos · p5.js · D3.js · GitHub Actions · CI/CD · CLI Tooling · Python · Docker · Git · Zod · Playwright · YAML/JSON Schema · Claude Agent SDK · WebSocket · GCP / Terraform | |
| SELECTED PROJECTS | Portfolio — Component-Driven Design System & Quality Governance Astro 5 static site with CSS custom properties as design token layer — semantic variables for dark theme, gold accent, burnt sienna hover states. Full-page p5.js generative canvas (3 intensity modes) composited via z-index layering. Quality ratchet: policy JSONs committed to .quality/ directory, validated against README values through automated tests. Deploy gate triggers only on quality pipeline success. Pagefind search, Vitest unit tests, Playwright E2E, accessibility validation. 20 case studies, D3.js data visualizations. | |
| | ORGANVM Eight-Organ System — Documentation-First Developer Infrastructure 103 repositories across 8 GitHub organizations with CLAUDE.md governance in every repo — build commands, architecture notes, navigation protocols, and dependency declarations. 128 GitHub Actions workflows (18 reusable templates), 94 CI/CD pipelines, 43 validated dependency edges with zero circular dependencies. Automated promotion state machine (LOCAL → CANDIDATE → PUBLIC → GRADUATED). seed.yaml metadata contracts. 810K+ words of documentation. TypeScript + Python. | |
| | Application Pipeline — DX-Focused CLI Tooling Suite 14 independent Python CLI tools sharing a common library (pipeline_lib.py): Greenhouse API client, YAML pipeline state machine, 8-dimension scoring rubric, campaign orchestrator, submission preflight, batch enrichment, velocity tracking. Consistent CLI patterns, helpful error messages, and structured output across all tools. | |
| | agentic-titan — Multi-Agent Orchestration System TypeScript multi-agent framework: 18 development phases, 1,276 tests. Agent coordination, task decomposition, and parallel execution patterns. Structured for extensibility and reliability. | |
| | agent--claude-smith — Claude Agent SDK Integration TypeScript agent built on Claude Agent SDK with session persistence, self-correction hooks, and structured tool invocation. Designed for autonomous multi-step software engineering tasks. | |
| EXPERIENCE | Independent Software Engineer & Developer Experience Builder 2020 — Present <ul style="list-style-type: none">CI/CD Infrastructure: 128 GitHub Actions workflows (18 reusable templates), 94 CI/CD pipelines, automated dependency validation across 8 GitHub organizations. Quality ratchet governance: policy JSONs validated through automated tests, deploy gates enforcing pipeline success.Developer Tooling & Documentation: CLAUDE.md documentation standards in every repo (build commands, architecture notes, navigation protocols). 14 CLI tools with consistent patterns, structured output, and helpful error messages. seed.yaml metadata contracts across 103 repositories. 810K+ words of documentation.Design System Architecture: Component-driven front-end with CSS custom properties as design token layer — semantic variables, dark theme system, generative p5.js canvas with 3 intensity modes. Astro 5 build pipeline with Vitest, Playwright E2E, accessibility validation, and Pagefind search indexing.LLM Orchestration: Multi-agent systems with Claude Agent SDK (agent--claude-smith), agentic-titan framework (1,276 tests), structured tool invocation and self-correction. | |
| | Instructor — Composition & Writing 2015 — Present <i>Miami Dade College, Keiser University, Nova Southeastern, FAU, Young Harris, Tarrant County, Broward, Palm Beach State</i> <ul style="list-style-type: none">100+ courses across 8 institutions; 2,000+ students. Clear technical communication, documentation, and mentoring. | |
| | Digital Marketing Manager 2023 — 2024 <i>Miami Dade College Foundation (nonprofit)</i> <ul style="list-style-type: none">Rebuilt foundation website; designed campaigns increasing donor engagement by 32%. | |
| | Multimedia Specialist 2011 — 2020 <i>AJP Media Arts — clients incl. Boca Ballet Theatre, Forward Funding, Arts in Boca</i> <ul style="list-style-type: none">Video, audio, and visual campaigns for nonprofits and arts organizations; 17.5M+ views, \$2M in fundraising. | |

EDUCATION

M.F.A. Creative Writing, Florida Atlantic University

2015 — 2018

B.A. English Literature, CUNY College of Staten Island

2010 — 2014

CERTIFICATIONS

Full-Stack Developer, Meta (2024) · UX Design, Google (2023) · Digital Marketing, Google (2023) · Project Management, Google (2023)
