

Anthony James Padavano

INDEPENDENT SYSTEMS ARTIST (INFRASTRUCTURE AS MEDIUM)

New York City | 561-602-7300 | padavano.anthony@gmail.com

LINKS	Portfolio · Omni-Dromenon Engine · ORGANVM System · GitHub	
PROFILE	Independent systems artist and infrastructure architect exploring the aesthetic potential of autonomous governance, recursive architecture, and steerable AI orchestration. Creator of the "ORGANVM Metasystem," a 103-repository living sculpture where technical governance is reclaimed as a primary medium of expression. Specialist in "Infrastructure Art," translating deep technical rigor into scannable narrative "Storefronts" for human-agent collaboration. Focused on the performative nature of CI/CD pipelines and the choreography of solo production at institutional scale. 18 years professional experience. MFA Creative Writing. LGBTQ+.	
TECHNICAL SKILLS	Systems Art · Autonomous Governance · AI-Conductor Methodology · Technical Storytelling · CI/CD Choreography · GitHub Actions · Multi-Agent Orchestration · TypeScript · Python · Schema Validation · D3.js · p5.js · Data Visualization · Software Architecture · Pedagogical Design · Public Process Documentation · MFA Creative Writing · Docker · Git	
SELECTED PROJECTS	ORGANVM Eight-Organ System — 103-Repository Infrastructure Art A unified technical and narrative infrastructure encompassing 21K code files and 810K+ words of documentation. Governed by a formal promotion state machine and automated dependency validation. Every commit is a performative act of governance, verified by 2,349+ automated tests that act as aesthetic sensors for correctness and integrity.	
	Classroom RPG Aetheria — AI-Native Learning Environment Prototype for an interactive pedagogical environment featuring dynamic AI quest generation. Hardened for production with robust failure handling and 100% pass rate across unit tests. An exploration of making complex AI integrations resilient, human-centric, and steerable.	
	agentic-titan — Multi-Agent Orchestration Framework TypeScript framework for orchestrating complex, multi-step creative tasks across autonomous agent swarms. Includes 18 development phases and 1,276 tests. Engineered to explore high-reliability tool invocation as a choreographic score.	
	Omni-Dromenon Engine — Audience-Participatory Consensus System Real-time performance infrastructure where collective input shapes live art through weighted consensus algorithms. Reclaims automated decision-making as an interactive, human-scale dialogue. <2ms P95 latency. Open-source MIT.	
	Portfolio — Performance-Grade Scannable Interface Astro 5 site governed by a CI/CD "quality ratchet" that enforces strict validation standards. Represents the scannable "Storefront" for deep systemic infrastructure work, making complex architectural decisions visible to the public.	
EXPERIENCE	Independent Systems Artist & Infrastructure Architect 2020 — Present <ul style="list-style-type: none">Governance as Art: Designed a 103-repository system where the rules of technical orchestration serve as the primary artistic medium; treat the infrastructure of creation as the aesthetic object.Infrastructure Performance: Built a corpus of 2,349+ automated tests across 94 active repositories, utilizing technical correctness as a form of verifiable aesthetic trust.AI-Augmented Methodology: Pioneered an "AI-conductor" methodology using specialized AI agent definitions as compositional instruments to drive solo production at institutional scale.Narrative Translation: Published ~810K+ words of documentation and essays, translating deep systemic architecture into scannable human-readable interfaces with pedagogical transparency.	
	Instructor — Composition, Writing & Complex Systems 2015 — Present <i>Miami Dade College, Keiser University, Nova Southeastern, FAU, Young Harris, Tarrant County, Broward, Palm Beach State</i> <ul style="list-style-type: none">100+ courses across 8 institutions; 2,000+ students. Mentoring practitioners in technical rigor and translating complex architectural concepts into accessible pedagogical content.	
	Digital Marketing Manager & Narrative Strategist 2023 — 2024 <i>Miami Dade College Foundation (nonprofit)</i> <ul style="list-style-type: none">Architected foundation website overhaul and campaign design, utilizing data analysis to drive a 32% increase in donor engagement.	
	Multimedia Specialist 2011 — 2020 <i>AJP Media Arts — clients incl. Boca Ballet Theatre, Forward Funding, Arts in Boca</i> <ul style="list-style-type: none">Produced high-volume visual and narrative campaigns; generated 17.5M+ views through the intersection of technical production and storytelling.	
	EDUCATION M.F.A. Creative Writing , Florida Atlantic University2015 — 2018 B.A. English Literature , CUNY College of Staten Island2010 — 2014
